

Re : Launching of International Coatings Approval Scheme

In meeting industry needs, the SWS is extending its scope of training and certification services by including coating inspection in addition to welding inspection and non-destructive testing. A training & certification scheme for coatings inspectors and coatings operatives, known as the International Coatings Approval Scheme (ICAS), has been developed by Waugh Technical Services (WTS) UK and SWS Singapore. An ICAS Coatings Technical Training Committee (CTTC) comprising international representatives with expertise and experience in coatings and corrosion is chaired by a well known and respected coatings specialist, Bill Waugh from WTS.

Venue : Civil Service College
31 North Buona Vista Road Singapore 275938
